The experience how we roll

We live & enjoy - the beautiful island of Ibiza, the sacred land surrounding the finca, beaches, jamming sessions, play, communal dinners, movement, rest, celebrations, solitude, circles, late night dance sessions and kitchen convos ...

We evolve - as a person, with people, in purpose, profession - and pleasure.

We seek to evolve so all we do, are connected to, can evolve too. Daily shamanic teachings and practices guide us to tap deeper into our true potential and expand the space. Health routines like morning practices energize us for the day, regulate our nervous system, and show us how to sail through life's high and low tides. We practice conscious communication, offer feedback where received, and form lasting connections. Masterminds bring solutions to our greatest needs. Everyone is invited to share workshops and activities of any kind. We are happy to explore purpose related topics and offer opportunities in change creating organizations. We love to play. The finca comes with plenty of invitations to be active, get comfortable, come together, and share all kinds of magic moments.

We create - immersive fully in the land and vibrant colors of Ibiza - or find your spot to (co)work and create - a nurturing environment, good routines, and inspiring people make it easier, more effective, and fun. We are co.creating flow state. Surrounded by individuals from different walks of life we get to tap into a broad variety of knowledge, experiences, network, opportunities, and brainstorming power - that move us forward in our missions.

We connect - this experience is co.created. So we take great care to choose the right people, partners, and places. We invite people who are open, honest, warm, and driven, those that (want to) take action to shape the world around us. By uniting such resonating minds in a flourishing environment, we know special moments and synergies happen.

Ultimately, this is about fueling our bodies, minds, and souls to connect to ourselves, our tribe, and the natural world - to ignite our light, innately grow - and with that everything we are connected to.

The best way to predict the future is to create it - Peter Drucker

experiences / testimonials

"It was like stepping into a different world. A world of aliveness, of fresh energies, opening, enriching, and inspiring. So many gifts, so many sharings, teachings, and learnings, that I cannot count them. It was magic and full of joy. A space of acceptance & appreciation"

Christian Ruhl (entrepreneur on a spiritual journey)

"The experience was not merely a retreat, but an exploration of selfsovereignty, and deep care. What is strikingly admirable is the dynamic network they have cultivated, filled with conscious changemakers working on regenerative projects. The impact is palpable – not only are you rejuvenated personally, but you also become part of a vibrant tapestry of aligned individuals creating meaningful change"

Shane Williams (entrepreneur, regenerative community builder & alchemist)

For me, the invitation came when I really needed it, even though I didn't know that at the time. I felt an instant curiosity and a 'yes' in response. The time I spent there was spacious, in both my inner and outer worlds - productivity was high, ideas were flowing and I felt nourished physically, emotionally and socially. This space, as well as the social culture and the people around me, led me to some deep realisations and shifts within myself. I left full of life, possibility, and clarity on my next steps.

Nina Rosner (social entrepreneur)

"This is a dream life in a dreamscape. I can not imagine waking up in a dream and not wanting to be anywhere but here"

Yan Yak (community creator)

"It's really nice to tap into this. It gives a taste of what the world can be. New Earth Co.living"

Bart Hoorweg (vision engineer, coach & network builder)

the multiverse finca & location

We reside in Finca Green Beautiful, a hidden gem where time stands still, and nature's beauty envelopes you. In authentic Ibiza style the finca is painted in all white, surrounded by beautiful flowers and rose bushes, and gently integrated into the landscape. The traditional Finca embraces the simplicity and rustic charm that is inherent to its design, offering a modest yet charming ambiance. In the midst of six hectares of ancient land and wise, 600 years old olive trees, this serene oasis allows you to disconnect from the hustle and bustle and rediscover your inner peace. We unwind under the milky way on warm summer nights and explore nearby crystal blue beaches (5-10 min drive), charming villages (such as San Carlos and Santa Eularia), and breathtaking mountain views. A place out of a fairytale, not for everyone to find, that invites us to deeply rest, recharge, and reconnect. Here is a sneak peak of what awaits you. ..

living spaces & kitchens

The Finca has a mid-summer night Ibiza Bohemian feel, drop back in time, every room has its own unique charm. The two story farmhouse comes with a living kitchen, patio lounge, living room, and hidden reading corners.
